“The Mystery at Maple Hill”

Last weekend, my class went on a trip to Maple Hill, a quiet village surrounded by forests. On Saturday morning, we visited the local museum, where we learned about the history of the village. In the afternoon, something strange happened. As we were walking through the woods, our teacher noticed some unusual footprints on the ground. They didn't look like animal tracks, and they were too big to be from a person.

Everyone became very curious. We decided to follow the footprints deeper into the forest. After about twenty minutes, we reached a small wooden cabin that wasn't on any of our maps. The door was half-open, and inside we found old tools, lanterns, and a journal with strange drawings of animals and stars.

Our teacher said the cabin must have belonged to a forest explorer from long ago. We took pictures and made notes for a project. It was the highlight of our trip, and we still talk about the mystery cabin today!
